2017
- Software Engineering

### Profile

Transitioning from a successful music career to software engineering, I offer a unique blend of creativity and technical expertise. With over 5 years of hands-on experience in full-stack development and leadership roles within technical instruction teams, I passionately leverage technology for innovative solutions.

### Key Highlights

- **Versatile Background:** Musician turned software engineer excelling in diverse challenges.
- **Proven Experience:** Successful track record in full-stack development, delivering robust, scalable solutions in various technologies.
- **Educational Leadership:** Leader in technical instruction, dedicated to fostering growth and creating a continuous learning environment.

### Professional Approach

Fueled by an insatiable thirst for knowledge, I contribute meaningfully to projects and support others' professional growth. Committed to creativity with a strong technical foundation, I am a valuable asset in any software engineering endeavor.

### Experience
